

POWER PRODUCTS

VPT Power is a leading provider of Hi-Rel power conversion solutions for avionics, military and aerospace, including DC-DC converters and EMI filters. The short lead times, small form factor offerings, and one of the widest variety of modules on the market makes VPT your to-go-place for Hi-Rel power needs.

Totex designs and manufactures custom rechargeable battery packs of all chemistries as well as a family of custom modular chargers. China and US based contract manufacturing services available as vertical service.

Megmeet is China's leading manufacturer for flat panel display power supplies. With 350+ Chinese engineers Megmeet USA's custom and medical power supply division is both quick to market and cost effective.

Flex is the global leader in high efficiency, high density board level DC/DC converters, and compliant PoL converters.

Tadiran's primary and rechargeable cells have the lowest self-discharge rate and widest operating temperatures in the industry. Tadiran's 30+ years invested in lithium thionyl chloride technology result in the World's most powerful and reliable batteries that deliver unveiled performance in the harshest of environments.

EPC Space makes Rad-Hard GaN FETs for space applications. GaN FETs are 10x smaller and 30-40x faster than Si MOSFETs, all while being extremely cost effective.

About Us...

Since 1973, Varigon Inc. has been a leading manufacturer's rep firm, helping thousands of electronics companies complete their product designs on time, and with minimal obstacles, from component selection to production. Our traditional focus has been on **Components and Subsystems**, mainly providing **Power and Human Machine Interface** solutions to specific high value markets and applications that include medical, military, and industrial sectors. Varigon proudly represents the global leaders in each of our product categories. In 2006, Varigon added **Contract Manufacturing** services to help our customers with their OEM and ODM electronics manufacturing needs. Our CM partners provide DFM and engineering services, local and global manufacturing options, and range from PCBA to full turnkey and end to end logistics services. Varigon represents notable contract manufacturers such as 5 different groups of Foxconn and SMTC Manufacturing.

VIDEO & COMPUTING

Sony Visual Image Products Group specializes in block, machine vision, 4K and B2B customized solutions. Over 50% of all image sensors in the world are made by Sony, why not get the full solution as well.

Mercury Systems is a leader in high density, NSA certified solid state drives for use in mission critical military & space applications. Mercury also specializes in high density, compact, light-weight and secure rugged servers, certified for defense, aerospace and edge use.

Teledyne E2V is a global leader in line scan cameras and large format CMOS area sensors for specialty automotive, medical, and industrial applications.

Avalue provides single board, embedded computers, all-in-one computers and white box products for applications such as industrial automation, kiosk, POS, POI, gaming and medical products.

Nextorage Corporation is a new Sony Group company specializing in imaging and industrial memory storage solutions.

Foxconn White Box Servers & Cloud Storage Group is the world leading supplier of servers, offering the highest of quality at the most cost competitive on the market. From chassis to a fully populated server, Foxconn will provide you what you need.

AU Optronics is one of the world's leading providers of TFT displays and display solutions.

Los Angeles Office

2659 Townsgate Road #205

Westlake Village, CA 91361

Phone: 818.735.5494

Fax: 818.735.5499

IoT & CONNECTIVITY

Thundercomm is a joint venture of ThunderSoft and Qualcomm. With Qualcomm's SoC technology and ThunderSoft's powerful operating system technology, Thundercomm has become a world-leading IoT product and solution provider.

Realtek is one of the world's largest IC design houses. With 2k+ engineers, Realtek is committed to provide the ultimate in pioneering IC technology, creating unique and innovative design for a broad range of high-tech application.

Alps Alpine is a global leader in Sensing Devices, Input & Control Electronics, and Connectivity & Communication Technologies

Orange County Office

200 Newport Center Drive #304

Newport Beach, CA 92660

Phone: 949.720.8399

Fax: 949.720.8379

CONTRACT MANUFACTURING

SMTC is a vertically integrated mid-size EMS provider with 5 manufacturing facilities and 3 R&D centers in the US, Canada and Mexico. SMTC focuses on high-end markets - the more complex the better - and has one of the strongest supply chains in North America

Foxconn is the global leader in contract manufacturing and vertically integrated solutions with the world greatest supply and logistic chain. Foxconn's reach is global with production facilities and R&D centers in Asia, Europe and the Americas. Varigon will help you navigate the Foxconn world.

San Diego Office

4420 Hotel Circle Ct. #160

San Diego, CA 92108
